Everybody Says So.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly falling to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials, Address F. J. A novel proposition was made not long ago to the Receivers of the Baltimore & Ohio Railroad. The B. & O has a branch running from what is known as Alexandria running from what is known as Alexandria
Junction, near Washington, to Shepherd's
on the Potomac River, where a car ferry
is operated in connection with the lines
leading south from the Capitol. A professor of an eastern college desired to lease
this short stretch of track for the purpose
of educating young men in practical railroad work. In his letter he explained that
be the apply there was a wide field for bright he thought there was a wide field for bright and energetic boys who could be thorough ly well grounded in the practical side of railroading provided they could be edu-cated on a regular line of road. He beleved that by the employment of veteran railroad men as teachers that the boys ould profitably spend 2 or 3 years work ing as trainmen fremen engineers switch men, station agents, and in other capacities required in the railroad service. ole value the Receivers were compelled to

How Early Settlers in Oregon Induced Women to Go to Their State.

"There are plenty of women in Ore-

gon now," observed a prominent Oregon politician, who is in Washington to see that the state is not forgotten in the matter of patronage, "but it is within the memory of many of us when women were scarce there. We gave it out that we wanted them for school teachers and the like, and encouraged them to come out there, but the truth was the men wanted them for wives. I remember once we sent a young man to Massachusetts, where he was well acquainted, with orders to collect one hundred young women and escort them back to Oregon. We guaranteed every one of them one year's employment, The active man in the matter was a fine looking young man, who afterwards served two terms in congress from our state. He spent two months In selecting the party and started west with them. On the trip out he courted one of the school teachers on his own hook, and actually got her consent to a marriage on the arrival of the train at Portland. The boys howled considerably about it, claiming that he had treated them unfairly in having first choice, but there was a lot of fine, marriageable material left. Some of these women are today the leading ladies of the society of the state. More than three-fourths of the hundred were married inside of three years, and many in less than one year. A few of the lot, however, are teaching school here today, not that they did not have any offers, but because they would not accept any of the fellows who offered themselves. Now that Senator Mitchell has about given up his contest to return as penator, he will likely be succeeded by a gentleman who married one of the party of school teachers to which I refer. He will bring his wife here with him, and your Washington folks can see for themselves the kind of ladies we had out there for school teachers, They can't be surpassed, even if equated anywhere. I may be an interested person, though, for it happens that my
